Kaletisidik Kelayneh Asefaw

Health Informatics Professional

SUMMARY

Recent B.S. graduate in Health Informatics with strong knowledge of health information systems, medical data management, and digital health technologies. Skilled in software development, database management, and healthcare system integration. Experienced in developing healthcare solutions. Knowledgeable in health data standards, health analytics, and health information security. Seeking a full-time role to apply technical and informatics skills to improve healthcare service delivery and data-driven decision making.

EDUCATION

Debre Berhan University June 2022 – March 2026
Bachelor of Science in Health Informatics
GPA: 3.68
Exit Exam: 76

TECHNICAL SKILLS

Operating Systems: Linux, Microsoft Windows
Programming Languages: C++, Java, Python, PHP, JavaScript
Database Management: MySQL and SQL
Servers: Apache Tomcat
Hosting Platforms: Netlify, Render, Railway
Version Control: Github, Git
Data Analysis: SPSS
Health Informatics systems: DHIS2, EMR

SOFTWARE PROJECTS

Clinical Decision Support System (CDSS – ANC)

Developed a hospital-focused ANC decision support system with custom clinical guidelines, real-time drug safety checks, and AI-powered anemia risk prediction. Integrated WHO-based diagnostic standards and EMR data synchronization. Built with PHP, Python (LightGBM), MySQL, and JavaScript.

Custom EMR System – Hakim Gizaw University Hospital

Built a multi-language EMR system with patient and doctor portals, AI consultation, telemedicine support, and appointment management. Developed using PHP, JavaScript, HTML/CSS, MySQL, and Node.js Socket.

Telegram Community Management Tool (T-GRAB)

Developed a web-based tool for Telegram group management with multi-account support, member data extraction, and automated controlled invitations. Built with Python and Telegram API, featuring a browser-based dashboard

SKILL

Hard Skills	Soft Skills
- DHIS2 - Health Data Analysis - Health Information Management - Graphic Design - Video Editing - Computer Maintenance and Troubleshooting	- Communication Skills - Teamwork and Collaboration - Ability to Work Under Pressure - Problem Solving - Critical Thinking - Adaptability - Time Management - Attention to Detail

Additional
Information

Languages:	Amharic (Native), English (Advanced)
Certifications:	DHIS2 Online Course Certificate
	Data Analysis Certificate Udacity
	Learning Center Certificate
	eSHE Course Training Certificate
	Coursera: Basics of Web Development & Coding Specialization
	Android Kotlin Development Fundamentals Certificate
	Certificate of completion - 21 day career and leadership boot camp
